

**272** homeless in need served since we opened the café;

**70** new clients in the first 6 months of 2021 alone (as many as in the first year of operation).

Saw **47** new clients just in September

**You can help us!** Clearly, the number of homeless and their compelling needs are greater than many thought. Secure housing is a vital community need but it comes with complex issues and challenges. This late in the pandemic we are experiencing dramatic increases in new clients in the café.

We provide:

- Mail address required for most service applications.
- Shower, Food, Clothing, and a listening ear.
- Facilitate referrals for job resources; permanent housing; mental & physical health

We accomplished all this with only a \$79,000 annual budget, but we are perilously low in funds and entirely dependent on the generosity of local donors!

Helped **5** clients enter drug rehab;  
helped *many* more secure jobs;  
and provided **45** nights of emergency motel housing since mid-May.

Helped **16** left homeless by May 2021 apartment fire with emergency housing, food and clothing and secure sustainable housing & replace some basic living resources after Red Cross support ended.

**Significant Recent Growth in New Clients**

## Mission

Strive to unite entities throughout our community in making progressive steps to improve lack of home conditions for citizens in need. Endeavor to create an exit door through collaborative togetherness to a more stable and profitable life.

## Vision

The Crossroads to Home Coalition meets each person where they are, in their unique circumstances, to provide customized services to help them overcome the cause of their lack of home condition.
